

## **Family/Student Access to SKYWARD**

**2020-2021**

You may access some of your student's school information through the internet using a program called SKYWARD. Some of the items that can be seen include your student's schedule, attendance, discipline, grades, class assignments and calendar.

The website link is located on the South Whidbey School District homepage [www.sw.wednet.edu](http://www.sw.wednet.edu). While on the district homepage, select the "Skyward Online Grades" link located under the families tab. This link will take you to the Skyward South Whidbey School District login page.

To log into the Family Access site, you must have your user name and your password. Your user name is your first and last name with a period in-between (example: john.doe). The required password can be retrieved by clicking the "Forgot Password" link under the log in information. If you are having trouble logging into Skyward please call (360) 221-4600 for grades K-4 and (360) 221-5100 for grades 5-6.

You and your child have separate accounts set up in Skyward. We recommend that you log in as yourself because you can see information about all of your students with one username. If your student has forgotten their information, they may get it from the front office.

The families that are using Skyward have been very pleased with the information available to them and their children. If you have any questions please don't hesitate to contact our offices.
